

## **What is S.E.E.?**

The S.E.E. Program is an award-winning 2-day seminar on seizures and epilepsy. It is for people with epilepsy age 12 through adult, their family members and parents of children with epilepsy, care givers, nurses and therapists. In two days you will learn how you can get the best seizure control possible with the fewest side effects from treatment. You will also learn how to cope with epilepsy in every day life—emotionally and socially, within the family, school setting and at work. Parents will learn how to give their child the best chance for optimal development and social success.

For more information about the S.E.E. program go to [www.theseeprogram.com](http://www.theseeprogram.com)

## **Featured Speaker**

Robert J. Mittan, Ph.D
